

Time Trials

The following is the instructions and list of the 4 Time Trials taking place on race day.

Please note that **all crews in each category** need to launch **at least 20 mins in advance** so that all crews get into position for the time trial to start on time.

Crews will proceed to the start and collect in their categories, in correct number order, in the warm up area above the start. Wait to be called to a rolling start on the Gilford Station by the officials. Crews will be set off approx. 1 min apart.

Impediment of crews who are undertaking their time trial will result in a **traffic violation warning** and a false start being awarded to the crew who impeded.

Crews therefore need to pay attention to ALL DIRECTIONS FROM OFFICIALS on their way to the start.

Numbers will be given on launching and must be returned when back at slip after time trial.

The fastest 2 crews from each Time Trial will proceed to a final – times will be available after the whole time trial period has finished & finalists announced.
